**Echo Son quick facts:**

- Based out of Chicago
- Members have extensive live performance experience, including national touring
- Released debut E.P. in February 2008
- Creative and intelligent promotion to maximize fan base
- Strong songwriting and live performance

**Band biography:**

Echo Son was formed in early 2006 by four musicians who shared the same vision. That vision was to create a new, fresh, creative style to melodic modern hard rock, while not compromising on the art of song writing. 2008 brings Echo Son closer to the spotlight, with their newly recorded E.P. and a live act that is not to be missed.

While 2007 was focused on writing strong, melodic songs, 2008 launches Echo Son into a new realm of exhilarating live performances, intelligent songs and world class musicianship.

Echo Son fuses sounds of complex progressive hard rock with catchy vocal melodies. Echo Son has created a sound that is dark, primal and sludgy. Their sound infuses odd time signatures with grinding guitars and pounding, driving rhythms. Echo Son has created an inventive sound, style and performance that is primed to be an unstoppable machine.
